Questions

1. Design a health and self-care mobile app that helps users maintain mental wellbeing with meditations and exercises. This case study talks you through the design process of creating a user- friendly mobile app. Design UI with the following requirements.
 - User Login
 - Register
 - Health Routine Blogs
 - Self-Care Blogs
2. This is an intelligent job assistant that helps users find their ideal job and get to all the way to signing a contract faster and more easily. Design UI with the following requirements.
 - User Login
 - Register Subscription
 - Personal Detail
 - Resume Upload
 - Choosing Job
3. This is a mobile app that can help people get parking slots easily even when they travel beyond their normal routes. Design UI with the following requirements.
 - UserLogin
 - Register Count of Empty Parking
 - Free Parking Slots Display
 - Booking Parking Slots
4. Design a mobile app for Online Body Fitness tips and videos for a good daily routine. Contains the following requirements.

User Login

 - Register
 - Fitness Blog
 - Diet Planner
 - Fitness Videos
 - Payment and Subscription

Pseudo Code Writing

Algorithm :

- step 1: Health and self care
- step 2: start
- step 3: Display login and Register options
- step 4: If the user is new, register by entering personal details.
- step 5: login using username and password.
- step 6: Verify user credentials
- step 7: If login is successful display the home Page.
- step 8: Allow the user to view Health Routine Blogs
- step 9: Allow the user to view self care Blogs.
- step 10: Logout when user finishes
- step 11: Stop.

Pseudo Code :

BEGIN

Display "Welcome to Health and Self care App"

Display "1. Register 2. Login"

If user selects Register THEN

Input Name, Email, Password.

SAVE USER DETAILS

END IF

Input Username, Password

If Credentials are valid Then
Display Home Page
Display "1. Health Routine Blogs"
Display "2. Self Care Blogs"
Input choice
If choice = 1 Then
Display Health Routine
Else
Display Self Care Blogs
END IF
Logout
ELSE
Display "Invalid Login"
END IF
END

2.

Algorithm :-

- step 1: Start
- step 2: Display Login and Register Subscription
- step 3: Register user details if new
- step 4: Login using valid credentials
- step 5: Collect Personal details
- step 6: Upload Resume
- step 7: Search available jobs
- step 8: Choose the desired jobs
- step 9: Confirm job application

Smart Parking Slots Booking App

Algorithm:

Start
Display login and Register options
Register new user if required
Login with valid credentials
Display available parking slots
show count of empty parking slots
user selects a parking slot
confirm Booking
update the parking slots verified
stop

Pseudocode:

BEGIN

Display "Smart Parking App"

Display "1. Register 2. Login"

If User selects Register THEN

Input user Details

Save Details

END IF

Input username, Password

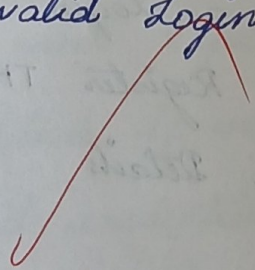

If Login Successful THEN

Display Empty Parking slot count

step 10: stop.

Pseudo Code :

```
BEGIN
  Display " Job Assistant App "
  Display " 1. Register 2. Login "
  If user Selects Register THEN
    Input User Details
    Create Account
  END IF
  Input username, Password
  If login Successful Then
    Input Personal Details
    Upload Resume
    Display Available Jobs
    Input Selected Job
    Apply for Selected Job
    Display " Application Submitted Successfully "
  ELSE
    Display " Invalid Login "
  END IF
END
```

Display Available Parking slots
Input slots Available Then
Book Slot
Update slot count
Display Booking successfully

ELSE
"Display slot not available"

END IF

ELSE

Display "Invalid Login"

END IF

END

Online Body Fitness Tips

Algorithm

step 1: start

step 2: Display the welcome page with login and registration.

step 3: If the user is new selection, the register option

step 4: Enter user details such as name, email, mobile number, username and password.

step 5: Validate and save the user information.

step 6: Display and save the successful registration message.

- Step 1: Allow the user to login via username and the password.
- Step 8: Verify the login is invalid, display an error image.
- Step 9: If it is successful display the home page.
- Step 10: Show the fitness blogs, diet planner and fitness videos.
- Step 11: Display the success image and logout
- Step 12: STOP

PSEUDOCODE :

```
BEGIN
  Display "Online Body Fitness App"
  Display "1. Register 2. Login"
  If user selects Register THEN
    Input user Details
    Save Account
  END IF
  Input username, Password
  If login Successful THEN
    Display Fitness Blog
    Display Diet Planner
    Display Fitness Videos
```

Display Subscription Plans

Input Selection Plan

Process Payment

If Payment successful Then

Display "Subscription Activated"

ELSE

Display "Payment Failed"

END IF

ELSE

Display "Invalid Login"

END IF

END.
